What is the Engineering Leadership Development Program Internship?
The Engineering Leadership Development Program (ELDP) Internship exposes you to the process of creating the new products, technologies and applications that fuel our industries, infrastructures and cities, and drive the growth of Siemens as a company.

With Siemens’ team of innovators as your mentors and guides, you will learn product design, feasibility analysis, quality assurance, manufacturing, project management, service, product management, applications engineering and supply chain management.

The internship program is designed to identify top candidates for the Engineering Leadership Development Program, which gives you the opportunity to become a full-time employee with Siemens and offers a promising career path.

Why Siemens?
Through a career at Siemens, students and recent graduates will receive top-of-the-line training, develop professional skills and be at the forefront of engineering innovation. Here, the opportunities are limitless.

Siemens employs approximately 60,000 people in all 50 states of the U.S. Siemens AG has a 165-year heritage of innovation and employs approximately 360,000 people in 190 countries.

Industry Sector
The Siemens Industry Sector is responsible for enhancing its customers’ productivity, efficiency and flexibility with automation technology, industrial software, technology-based services and marketing. Individual businesses in the Industry Sector include automation, drive technologies and customer services.

Who Should Apply?
We’re looking for people who are resourceful — true problem solvers who challenge themselves to find the most effective and efficient solutions to complex challenges. We provide a platform for those who want to have an impact on the future and contribute to the successes of the company, our customers and the world.

To apply for the Engineering Leadership Development Program Internship, candidates must meet the following requirements:

**Majors:** Mechanical and Electrical Engineering

**Education:** Rising junior or senior undergraduate student pursuing a degree from an accredited college or university

**Minimum GPA:** 3.0

**Availability:** Ability to work 40 hours per week from May to August

**Relocation and Travel:** Must be willing to relocate and travel as required by program

**Work Authorization:** Permanent work authorization in the U.S. is required
