Information Technology Leadership Development Program Internship
Industry and Infrastructure & Cities Sectors

Are you ready to build the information systems of the future and learn what it takes to manage the systems that power our company?

**What is the Information Technology Leadership Development Program Internship?**

The Information Technology Leadership Development Program (ITLDP) Internship allows you to be immersed in every element of IT and experience firsthand what it is like to be an integral part of our Information Technology team. You will learn what it takes to be a leader in IT Application Management, IT Planning, Operations, Project Management or Technical Services and you will ensure the effective and successful function of Siemens’ technologies nationwide.

Students who complete the internship program will be considered for the Information Technology Leadership Development Program.

**Why Siemens?**

Through a career at Siemens, students and recent graduates will receive top-of-the-line training, develop professional skills and be at the forefront of engineering innovation. Here, the opportunities are limitless.

Siemens employs approximately 60,000 people in all 50 states of the U.S. Siemens AG has a 165-year heritage of innovation and employs approximately 360,000 people in 190 countries.

**Industry Sector**

The Siemens Industry Sector is responsible for enhancing its customers’ productivity, efficiency, and flexibility with automation technology, industrial software, technology-based services and marketing. Individual businesses in the Industry Sector include automation, drive technologies and customer services.

**Infrastructure & Cities Sector**

The Siemens Infrastructure & Cities Sector finds smart solutions to make aging cities more sustainable and competitive, focusing on traffic and transportation systems, more efficient energy supplies and environmentally compatible building technologies. Individual businesses in this Sector include building technologies, low & medium voltage, mobility & logistics, rail systems and smart grids.

**Who Should Apply?**

We’re looking for people who are resourceful — true problem solvers who challenge themselves to find the most effective and efficient solutions to complex challenges. We provide a platform for those who want to have an impact on the future and contribute to the successes of the company, our customers and the world.
