

Marcus Welz

CEO of Siemens Intelligent Traffic Systems
Siemens Mobility

Marcus Welz leads the Siemens Intelligent Traffic Systems business in the U.S. As the world market leader in traffic technology, the company offers advanced software and systems to modernize and improve urban and interurban traffic. In this role, Welz manages all functions including sales, R&D, product management, customer service and drives strategic business direction.

Joining Siemens in 2001, progressing through a number of management role throughout Europe and the United States. Prior to his current position, Welz served as Senior Vice President and Head of Global Sales & Project Management at Siemens AG, headquartered in Munich.

Welz holds a Business Administration degree from Munich University of Applied Science and a Master of Science Degree in Energy Engineering from Karlsruhe Institute of Technology.

Siemens' Rail, Transit & Mobility Portfolio: Siemens Intelligent Traffic Systems business unit is part of the Siemens Mobility Division which provides efficient and integrated transportation of people and goods by rail and road – including all products, solutions and services regarding mobility. Siemens designs and manufactures across the entire spectrum of rolling stock including commuter and regional passenger trains, light rail and streetcars, metros, locomotives, passenger coaches and high-speed trainsets. In the U.S., Siemens is providing rail vehicles, locomotives, components and systems to more than 25 agencies in cities such as Washington D.C., New York, Boston, Philadelphia, Denver, Salt Lake City, Minneapolis, Houston, Portland, Sacramento, San Diego, St. Louis, Atlanta and Charlotte. Cities also rely on Siemens to provide traction-power substations and electricity transmission, as well as signaling and control technology for freight and passenger rail and transit systems. Siemens has transportation manufacturing hubs in: Sacramento, CA; Louisville, KY; Marion, KY; Pittsburgh, PA.
